I belonged to th lucky ones. The lockdown opened up new possibilities for me that were life saving and life changing. In April of 2020, I joined the Lab Ensemble of NowNetArts and participated in weekly presentations through the Internet until the end of June. The ensemble was originated by a sound research program,
			"For Synthesis" "Moving in Circles"	Acrylic on Wood	8" x 8" 10" x 8"	price upon request price upon		and most of the members are musicians. Our "demonstration presentations" were concerts with structured music improvisation. I belonged to the few members who are or visual artists or performers. Since I have practice in both genres I could alternate my contribution. On occasions I danced and other times I presented videos and live painting while the musicians were playing. That's how my music improvisation painting series started. I followed the impulse of the music in my choice of color, shape, texture, and started several canvasses during one presentation. They stayed as initial visual problems that I later finished alone. All of the submitted pieces were initiated

Even if the pieces went through complete transformation during my lonely work, they are imprints of those moments we spent together creating art and sharing that with the world defying the angst and death that surrounded us in those days At the start of the pandemic a year ago, I finished modeling two small clay pieces (a female head and a figurative nude) that I had been working on. In addition to my apartment in the East Village, I am fortunate to have a home and studio with a kiln and welding equipment upstate in the Hudson Valley. I was able to fire these pieces, along with a few others that I had completed prior to the lockdown. After

During much of this past year, I did work on researching, reviewing, and editing thousands of photos of nearly all my artwork, to prepare for a new website I plan to have designed and built. Fast forward to the last few days of March 2021. As a result of being invited to apply to this exhibit, I became excited and had the urge to create new work. In fact, I completed two pieces; both are wall sculptures. These are a continuation of a series that I began about 30 years ago: masks whose base is stove burner that is assembled with other found metal objects and welded together. There has been a

These pieces are playful and spontaneous. I think that because I have gotten the vaccine, I am more optimistic about surviving the virus into the future and feel free to have some fun with my artwork. I've been a resident of the East Village for 25 years, but for the past 14 years I have been to India every winter to do art projects with the girls in the red light district of Mumbai, and study and sketch South Indian temple art and architecture. Last year I was in Kerala when India went into a total lock-down on March 24, I had no idea when I'd be
								able to leave. The few repatriation flights were oversubscribed, besides, I was in a remote place and unable to reach them. Fortunately, I had a sketch book and some color pencils, so, to soothe my anxieties, I decided, on April 30 <sup>th</sup> , to do a drawing a day, and write on the back like a diary. What I though would be three weeks turned into almost three months. I filled the sixty page sketch book. Finally on June 16 <sup>th</sup> I was able to get a repatriation flight out. My lock-down drawings not only sustained me through the long period of limbo and anxiety, but also helped me experience this place, that I've been going to for 15 years, in a deeper way, noticing more, trying to capture life and the culture itself, fearful that once I finally left, I might not be able to return. It also led to an ongoing dedication to my own artwork. During the past year I have expanded to

It was a place where one could go, be out of doors and as GreenThumb had issues guidelines that the Community Gardens could not open to the public and only for gardeners to maintain the gardens, I would walk the dog and go to the garden. The flowers, particularly the clematis never ceased to amaze me with their variety and and incredible beauty. It took place outside of the garden on the sidewalk as only 10 garden members were allowed in the garden at one time. The Altar was placed in the entrance facing out to the sidewalk so that the community could still have access to place the mementos on the altar. We tried to keep the 6' distance and everyone was masked. The gardens played an important part in the lives of so many of us who live in the East Village, offering respite from the isolation imposed by the Covid restrictions. After graduating from High School, I joined a firm of Architects, in Dublin, as an entry level draughtsman. As a draughtsman I became intrigued with photography and bought my first camera and immediately began talking photographs and later printing my work. My first portfolio got me into college where I studied the history of photography and learned the more technical aspects of the camera. I graduated in 1987. My work from those early years always left me with a great feeling of expectation, a feeling which stays with me to this day. In 1990 I moved to New York City and
								became a freelance photo assistant working diligently with photographers from all disciplines. I learned a great deal from all of them. To supplement my income I would sell my work in cafes and this led me away from commercial work and back toward art and architecture where I can express my love for cityscapes and landscapes. When I am not taking photographs I like to draw and paint and make things out of wood.

It is actually quite stressful, because even a minor slip of the tiny scissors I use means it basically no longer exists. Fortunately, the predictable anxiety of this fake danger and the focus the process requires made it the perfect foil to the nightmarish first days of lockdown. I cut and arranged some of the surviving excised channels in the grate of the fire escape door of my sixth floor walkup in the East Village, and I took hundreds (thousands?) of photographs of them during all times of day. For me, they constitute a diary of my pandemic experience, as they document the very mediated relationship we all suddenly had with the outside world. Two of the submitted images are from this group. A third documents a temporary installation I did in a friend's window in Little Italy.

One night I took a shot of the full moon through the branches, ant looked like an eye. The next day, some artist who must have seen the same thing, brought a large abstract drawing on plywood of the eye, and set it up against the trunk. The tree just gave and gave to me this winter, in terms of comfort and inspiration. But I think this bench shot says it all about surviving Covid. These benches are never empty—even late at night. 			Laugh or you'l Bore Us"	acrylic & marker on paper	⊍ xvv 9"H	\$100.00		reminded me of a Brassai photograph of a Mexican prostitute. With her mask dangling from her very long finger nails, the manager pleaded with her several times to put it on, taking off his own so she could hear him better. She refused, saying something no doubt profane, in Spanish. I wanted to take a picture of her, but thought better of it due to her very long nails. Instead I did the drawing. "Janis" Sept 26 2020 This portrait of Janis Joplin was commissioned by a Native American friend who lives in Alberta, Canada I was delighted, having long been a fan of Janis. My family moved to a suburb of San Francisco in 1966
							"Baghe se lijere ik kon no" Maice Adrahamof Bighanfar	The first rock concert I saw in S.F. featured Quicksilver Messenger Service, Jefferson Airplane, Big Brother and the Holding Co., featuring our up-and- coming singer Janis, and the Grateful Dead at the Avalon Ballroom. After that, don't hate me when I tell you I saw her perform more times than I can recall She was everywhere! On one of my excursions to the Haight/Ashbury I saw her shopping with two girlfriends. Wearing a huge red fox fur hat, she whipped out a huge roll of dollar bills held together with a rubber band. Needless to say, at 14years old, I was impressed. Her death hit us hard as we considered her 'ours', a local, unlike Brian Jones, Jim Morrison and Jimi Hendrix. Shortly after I finished the portrait, the U.S./Canada border was closed. To send this to the friend that
				inkjet print &	11" x 14"	\$450.00	To Our 1st Responders	Shortly after I finished the portrait, the U.S./Canada border was closed. To send this to the friend that commissioned it would be a complicated and very expensive proposition. I hope with this new administration and management of the pandemic that the border will open soon.  Lois Carlo STATEMENT I created this collage to thank mine and other mail carriers who I think were under- appreciated and overlooked as first responders by the media. I also wanted to encourage people to VOTE 2020! during the COVID 19 pandemic.
